Clay Orbesen Named Featured Artist for September Exhibition

By Amy Nichols

The Plateau Creative Arts Center proudly announces Clay Orbesen as its upcoming Featured Artist in September, showcasing a dynamic selection of work from his 30 year career as a full time professional artist. Known for his knowledge across multiple mediums, his Old Masters training, and his innovative experimental techniques, Clay brings a depth of experience and creative range to this exhibition.

Gallery Opening Night September 4, 5-7 PM

Join us for the September Gallery Opening Night reception which will be held September 4, from 5-7 PM at the Plateau Creative Arts Center. This free event offers a great opportunity to meet Clay and mingle with other local artists while enjoying light refreshments, including wine and non alcoholic beverages.

A Career Built on Mastery and Dedication

For three decades, Clay Orbesen supported his family solely through his artwork—an achievement he describes as both uncommon and deeply meaningful. His early career centered on portraits and animal drawings, work that earned him recognition at shows across the country.

Clay's formal training includes study at the Art Institute of Chicago, Syracuse University (BFA), five additional art schools, and further study in Italy. He apprenticed under a master whose lineage traces directly back to William Adolphe Bouguereau, connecting Clay to one of the most respected traditions in classical art.

A Multidisciplinary Artist with Unique Techniques

Clay Orbesen's work spans pastel, watercolor, ink, acrylic, and oils, each chosen for its specific expressive qualities. Pastels became his primary medium for many years due to their fully reversible nature, allowing precise corrections without the surface ridges common in oil painting.

Clay Orbesen - The Picnic

Clay Orbesen - Jesus on the Sea of Galilee

His watercolor technique is equally distinctive—pure watercolor, preserving the white of the paper through careful masking and deliberate negative space. His ink work includes striking self portraits, while his acrylic paintings allow him to work at a large scale.

One of Clay's most innovative contributions is his development of "visualization paintings," works that shift and transform

as ambient light changes, revealing stars, hidden imagery, and evolving tonal structures. He also explores multiple armature painting, creating pieces using both hands and both feet simultaneously, a technique he describes as early stage subconscious expressionism.

September's Exhibit Details

The exhibition will highlight Clay's earlier and mid career work, offering visitors a curated look at the foundations of his artistic journey. Featured pieces will include:

- A 6x8 foot acrylic painting
- Selected pastel, watercolor, and ink works
- Examples of his multiple armature experimental pieces

While Clay is currently engaged in a monumental 40 year religious life work—an expansive multi canvas project featuring large scale imagery and Old Masters techniques—this exhibition will focus on the work most representative of his evolution as an artist.

Art Rooted in Faith, Service, and Vision

Beyond technique, Clay's art is driven by his faith, servitude, and purpose. He describes his creative motivation as an "electrical current," grounded in caring for his wife and guided by spiritual conviction. This emotional foundation shapes both his artistic philosophy and his long term projects.

Visit the Plateau Creative Arts Center

Clay Orbesen's Featured Artist exhibition will be displayed at the Plateau Creative Arts Center from September 4 to October 1. Admission is free, and all are welcome to explore the gallery, meet local artists, and enjoy the creative spirit of the community.

It improves hand-eye coordination greatly and really gets the right side of the brain active. Life drawing sessions at the Arts Center are not a class, everyone works independently. A different model is provided each month. Many of the participants focus on portraiture while others want to compose a drawing of the entire figure. If an artist would like help with their drawing, Dena or another artist is happy to provide assistance. *"Life drawing sessions are very supportive and we learn from one another. It's a good time!"*

DATE: 4th Wednesday of every month except for November and December.

TIME: 12:00 PM – 2:00PM

COST: \$5.00 / Open to the public. Registration is not necessary. Just come and join us. Payment must be made before the start of the session.

Mosaic artist Manuel Marti has more than 40 years of experience in stained glass and glass mosaics. Using one of Manny's illustrated mosaic designs, students will learn the process and techniques used to create these distinctive glass mosaics. Unlike traditional mosaic methods that begin by filling a pattern, Manuel's illustrated approach starts with a detailed drawing. Each piece of glass is individually cut and shaped to follow the design, while the grout lines become an intentional part of the finished artwork rather than simply filling the spaces between pieces. Throughout the workshop, students will learn every stage of the process, from selecting glass and shaping individual pieces to applying adhesives, grouting, and achieving a professional finish. By the end of the class, each participant will complete a mosaic while gaining the knowledge and confidence to apply these techniques to future projects. Some studio tools will be available for use during class; however, students are encouraged to bring their own favorite glass-working tools, especially glass cutters and grozing pliers. All other materials will be provided.
